

BlueCLEAN is a new generation of surfactants and builders that effectively emulsify and suspend even the most difficult soils.

HIGH CLEANING POWER — BlueCLEAN will surpass all other extraction agents due to its excellent soil suspension and removal capabilities. The cleaning time will be reduced resulting in a very satisfied customer.

HIGH CONCENTRATE, LOW COST — When compared to other powders or liquids, BlueCLEAN will save money. Because of BlueCLEAN's concentration, more carpets will be cleaned for less cost.

EASY MIXING — Warm water is all it takes to dissolve BlueCLEAN.

LOW RESOIL — With the advanced surfactant formulation in BlueCLEAN, residue will not attract soil, and in fact may help the carpet stay cleaner longer.

SAFE — BlueCLEAN has special additives that help prevent corrosion and buildup in the extractor or truckmount, and at the same time, it's buffered pH (9.8) is safe for use on 5th generation carpet.

DIRECTIONS: To be used as the primary cleaning agent or as a rinse agent, in the extraction process for carpets. For truck mount concentrate, add 2 to 3 cups BlueCLEAN to 5 gallons of warm water. Mix thoroughly until dissolved. For systems metered on low settings, or for excessively soiled carpets, 3 to 4 cups may be used. For portable equipment, use ¼ to ½ oz. BlueCLEAN per gallon of hot water. Mix thoroughly until dissolved.

Safety Information:

CAUTION—Keep out of reach of children. Avoid contact with skin and eyes; may cause skin and eye irritation. If swallowed, may cause gastrointestinal discomfort with diarrhea. Wear eye protection and gloves during mixing of product, wash thoroughly after handling.

CONTAINS: Sodium tripolyphosphate (CAS #7758-29-4), sodium carbonate (CAS #497-19-8), sodium metasilicate (CAS #6834-32-0), surfactants, sodium sulfate CAS# 7757-82-6).

First Aid: Skin & Eyes: Flush with plenty of water. Consult a physician if irritation develops or persists. **Ingestion:** Give plenty of water if conscious. Do not induce vomiting. Seek immediate medical attention.

INSTRUCCIONES

Se debe utilizar como agente principal de limpieza ó como ayuda de enjuague, en los procesos de limpieza de alfombras por extracción: Añada 2-3 tazas de BlueCLEAN a 5 galones de agua tibia (25ml por litro — 1:40). Mézclelo completamente hasta que se disuelva. Para los sistemas conun medidor que ha sido fijado a un valor bajo, ó para las alfombras extremadamente sucias, se puede usar de 3 a 4 tazas (37 a 50 ml por litro — proporciones de 1:33 ó 1:20, respectivamente). Para los equipos portátiles: utilice de ¼ a ½ onza de BlueCLEAN por galón de agua caliente (de 2 a 4 ml por litro — 1:500 ó 1:250). Mézclelo completamente hasta que se disuelva.

PRECAUCIÓN: Si entra enl contacto con los ojos, láveselos con bastante agua durante 15 minutos. Si la irritación persiste, consulte con un médico. Si se produce contacto con la piel, lávese con agua limpia. Evite la ingestión. Si se ingiere el producto, consulte con un médico. Utilice lentes de seguridad con protección lateral al mezclar el concentrado.
