

BubbleBUSTER

A silicone emulsion designed for
controlling foam in an aqueous system.

Non-corrosive

www.gocleansupply.com

Controls foam in the extraction hose and recovery tank of carpet cleaning equipment. Helps prevent foam from being pulled into vacuum motor, which could result in damage to electrical components.

Safe to use. Contains no solvents, caustic, or acid.

Rapid foam breakdown — long-lasting foam control.

No offensive odor.

Other applications: Sewage system foam control, water fountains, whirlpools and spas.

DIRECTIONS

SHAKE WELL BEFORE USING!

Initial application: Add 2 ounces per gallon to pick-up tank.

If carpet has heavy deposits of shampoo from previous cleanings, additional BUBBLE BUSTER may be added as needed. Carpet with extreme build-up of shampoo may be pre-treated by spraying a 2 ounce per gallon mixture lightly over entire area to be cleaned prior to extraction.

CAUTION

May cause irritation to eyes and skin. Harmful if swallowed.

Contains a proprietary silicone blend. Wear appropriate protection to prevent eye and skin contact.

FIRST AID

Skin & Eyes - Flush with plenty of water. Consult a physician if irritation develops or persists.
Ingestion - Give plenty of water if conscious and induce vomiting. Consult a physician.
